Swing<sup>®</sup>**

**Specialist Mineral  
Turf Fertilizers**

## Easygreen mini 12®/Easygreen mini 21®

Two NPK fine grade formulas for fairway fertilisation and immediate nutrient supply.

- NPK fine grade fertilizer for fairways (1.0–2.5 mm)
- All nutrients in one granule
- Including vital micronutrients
- Available products:
  - Easygreen mini 12®: 12+12+17(+2 MgO+8 S+TE)
  - Easygreen mini 21®: 21+5+10(+3 MgO+5 S+TE)

## Fertilis Speed®/Swing®

Extra fine granulated NPK complex fertilizers with *Bacillus subtilis* selection E4-CDX® for healthier turf. For golf greens, tees and other valuable turf.

- Extra fine NPK grade for greens & tees (0.5 – 1.6 mm)
- All nutrients in every granule
- Including important micronutrients B, Fe and Zn
- Including microorganism *Bacillus subtilis*
- Available lines:
  - Fertilis Speed® 21+5+10(+3 MgO+5 S+TE)
  - Fertilis Swing® 14+6+17(+2 MgO+9 S+TE)

## Easygreen mini 12<sup>®</sup>/Easygreen mini 21<sup>®</sup>

### High Profile Fine Grade Turf Fertilizer

#### Advantages:

High Quality fine grades

- Better sward penetration and therefore less scorching
- Optimal and homogeneous spreading
- Less visibility of applied product

All nutrients in each granule

- Each granule contains macro and trace element fertilizers in compound form
- No segregation in nutrients which can happen with blended products

Safe and efficient product application

- Suitable for reduced application rates in fairways
- Less fertilizer collection by mowing equipment

High quality of raw materials

- All nutrients are fully plant available
- No Urea and virtually free of Chloride

#### Recommendation: 2–5 applications per year\*

Product	Dosage* (g/m <sup>2</sup> or kg/1,000 m <sup>2</sup> )	Application period
Easygreen mini 12 <sup>®</sup>	20–35	Autumn, winter, late spring
Easygreen mini 21 <sup>®</sup>	20–25	Spring, autumn

\* Under high rainfall conditions and on sandy soil the use of COMPO's Floranid<sup>®</sup> products (slow release) is recommended. If no rainfall within 24 hours irrigate if possible.

# Fertilis Speed®/Swing®

## Extra fine granulated NPK fertilizer healthier turf

### Advantages:

Extra fine grade

- Optimal sward penetration
- Excellent spreading ability

All nutrients in every granule

- All plants evenly receive essential macro- and microelements

With Bacillus subtilis

- Improved plant fitness and vitality
- Higher stress tolerance
- Promotion of root development

High quality of raw materials

- All nutrients are fully plant available
- Without Urea and practically free from Chloride

### Recommendations: 3–4 applications per year\*

Product	Dosage* (g/m <sup>2</sup> or kg/1,000 m <sup>2</sup> )	Application period
Fertilis Speed®	15–30	whole vegetation period
Fertilis Swing®	10–30	whole vegetation period

\* Under high rainfall conditions and on sandy soil the use of COMPO's Floranid® products (slow release) is recommended. Watering is recommended.
